Comment. The troop trains to Blumenthal are believed to be operated in connection with field exercises which were indicated by unloading of troops at Blumenthal on 6 June 1953.  Trains to Blumenthal come from Altengrabow  and as no Soviet troops are stationed in Angermuenda. It cannot definitely be interpreted which units moved to the Blumenthal area for possible field exercises.									
Comments Probably two troop trains carrying components of the 9th Gds Tank Div. It appears improbable, however, that the unit should have been in the Justarbog area for one day only.
